The Student Council has worked hard this year to promote a better student-faculty relationship, to improve school spirit, to encourage activities for school improvement, to develop leadership and to create a feeling of unity and friendliness among students.

The Student Council officers for 1994-1995 are President Heather Barber, Vice President Josh Williams, Secretary Mimi Makos, and Treasurer Joy Kruger. They have organized various activities and projects including pep rallies, student IDs, dances and selling Christmas grams.

President Heather Barber commented on plans to improve the function of the school: "We are revising the constitution of Bitburg High School Student Council, which hasn't been changed in years and is really outdated. We're also trying to get the community more interested in the school."

Ms. Hogan and Col. Matson, this year's SCA advisors, were pleased to comment on SCA's accomplishments. "The Student Council has made great strides this year to refocus the aim of the council toward student government. They succeeded in rewriting the Constitution and addressing the primary concern of students, which is lack of student activities."
