e work harder than any team in the school!" Captain Jordan Watts said. Co-captain Steve Gutschow jokingly added, "Basketball can't keep up with us!" Wrestling is not like any other sport, it's a lifestyle. Wrestlers have to constantly watch what they eat and make sure that everything falls into place for that one match.

The Barons showed what they were made of this year at the Division II and European Championships. With twelve top-three finishers at divisionals and two more at the European Championships, the team showed that they are some of the best wrestlers that Europe has to offer.

The Barons proved themselves right in their saying, "What do we do? Kick It!" This year in Division II as they won with a margin of victory of nearly one hundred points.

Coached by Jeffery Watts and Ethan Lake as well as several other dedicated volunteers the team had a lot of heart and determination.
