

EVE RYDAY

A day in the life at Bitburg American High

"Everyday life here at Bitburg High School is a challenge, but it's the events that occur daily that will eventually shape our lives and the lives of the people we touch."
 -Tyler Hardesty
 12th grade

Life at Bitburg High School has never really been what many consider normal. With our small student population, the Barons often find themselves involved in multiple activities daily. From the studies during the classrooms, to the extra curricular activities, students always find themselves using every moment in life. During the day, the students are often learning and having fun with friends.

Bitburg High School has always prided itself on being able to provide its students something to do. Something to meet the needs of everyone. With this, everyday brings something different. Outside of school, students engage in everything and anything. Hours are spent working hard at sports, academics and aesthetics. Making our student population such a diverse and unique place to be...

In the Beginning
 Rising early everyday, students make their way to the school bus that takes them to the school, day after day... after day.

Getting Ready
 Sounds of slamming lockers fill the hallway as students make their way to their various classes.
