

* After-dank special!

8 ways to center of

How to feel like the center of any room [without resorting to dine measures].

1 Always remember to bust out "the crybaby" at any dance/party/GALA EVENT!

2 Walk up to a random person and start dancing with them. They won't know you're there, but you will and that's all that matters.

3 Walk in like you own the place! Confidence is key!

4 Walk around with something on your face; you'll be sure to get attention!
