Students Against Destructive Decisions (SADD), is a school-based organization dedicated to addressing the issues of underage drinking, impaired driving, drug use and other destructive decisions and killers of young people. SADD's mission is to provide students with the best prevention and intervention tools possible to deal with the serious issues. The idea of empowerment is to build student's confidence and ability to create changes and manage behavior in a way that results in healthy life choices. Through meetings, activities and community service students learn to enjoy life, have fun and give back to their community.
