

This is your yearbook staff for this year. We worked really hard on producing this book for everyone to enjoy, laugh, and have memories as we move on to the next phase of our lives. Even though yearbook seems easy, because that's what most people would think, but it's not, it's very stressful, but at the same time fun. We had days when everything is going fine and we can just relax, then next you find us scrambling around to make our deadlines. Making this yearbook was challenging, because most of us aren't that creative to a "T" but we got the job done. We all hope you enjoy your yearbook of 2008, Passport.
