It seems like yesterday you came into our lives, said your first word, took your first step, went to your first day of school, and cheered for your first game. Now as we look back on the past 18 years and prepare to watch you take the next big step in your life, we could not be more proud of the beautiful young lady you have become. We know that you will use your many gifts to make the world a better place, and touch the lives of those you come in contact with.

You will always be our little Angel, and darling the time has come for you to spread your wings and discover the wonders of this great world. Just know that you can always come home, wherever we may be, and you will find the same love and support that we has been there through the years.

Love you to the moon & stars and back,
Mom, Dad and Nicole

18 years went by so fast!
We have taught you as best we could, the rest is up to you. Choose wisely, no regrets, and make every minute count!

A parent's only dream is to see their kids successfully succeed through the stages of life. With each passing scene we laughed, cried and loved.

Best wishes through your next performance.

You made us proud!

Love,
Mom and Dad
