Model United Nations (MUN) is an academic simulation of the United Nations that aims to educate participants about current events, topics in international relations, diplomacy and the United Nations agenda.

Foundation

The participants role-play as diplomats representing a nation or NGO in a simulated session of a committee of the United Nations, such as the Security Council or the General Assembly. Participants research a country, take on roles as diplomats, investigate international issues, debate, deliberate, consult, and then develop solutions to world problems.
